### Domestic-Systemically Important Banks

*9 June 2022*

In June 2014, the Bank issued the Guideline for Dealing with Domestic-Systemically Important Banks (D-SIBs) which sets out the methodology to be applied for assessing the systemic importance of banks and the ensuing capital surcharge to be maintained by them.

The methodology consisted of identifying those banks whose Segment A (domestic / resident) assets represented at least 3.5% of GDP at market prices and then assessing their importance in terms of five key indicators, namely, size, exposure to large groups, interconnectedness, complexity and substitutability on the basis of data provided.

The last assessment was carried out in June 2021 and five banks were identified as D-SIBs, namely, The Mauritius Commercial Bank Ltd, SBM Bank (Mauritius) Ltd, Absa Bank (Mauritius) Limited, The Hongkong and Shanghai Banking Corporation Limited and AfrAsia Bank Limited.

The current assessment has been carried out in June 2022 and the same above-named five banks have been determined to be systemically important for our jurisdiction.
