Errata: Clarifications and Answers

Replacement of existing data network and pabx infrastructure

SN	Page Number	Section / Sub-section	Reference	Question	Response from Bank of Mauritius
46	50	Appendix C.1 - Core Switch	Table IV - TECHNICAL COMPLIANCE FOR CORE SWITCH	State the number of transceiver and type of transceiver (single mode or multimode)	20 transceivers (Single mode Multimode) will be required on each core switch.
99	67	Appendix C.7 - PABX Infrastructure	Table XI - TECHNICAL COMPLIANCE FOR PABX INFRASTRUCTURE	How many participants per video conference expected? Will video conference be done within the LAN only or with other people outside BOM?	Maximum of 4. Video conferencing calls will mainly be point to point calls between advanced model two IP Phones or soft phones registered with the call admission and control unit, but solution should allow for video conferencing sessions with either 3 or 4 internal advanced model IP Phones or soft phones registered with the call admission and control unit. Both within the LAN and with people external to Bank of Mauritius. Only within the LAN.
102	67	Appendix C.7 - PABX Infrastructure	Table XI - TECHNICAL COMPLIANCE FOR PABX INFRASTRUCTURE	Do you require a video conferencing solution?	Not for the time being but system should support future integration. There is no requirement for a multipoint control unit [MCU] nor for a dedicated video endpoints. However system should allow for point to point video conferencing calls between two advanced model IP Phones/soft phones or for video conferencing sessions with either 3 or 4 internal advanced model IP Phones/soft phones registered with the call admission and control unit. System should allow for future integration of video conferencing devices [multipoint control units, end-points, gateways/session border controllers, etc.].
116	74	Appendix C.8 - Specification of phones	36.9 You can record a live conversation with a caller and have the recording sent to your mailbox.	Is this required?	The feature is required. This is not required.
