OVERVIEW

Global economic and financial developments

The US Federal Reserve System (US Fed), at its FOMC meeting of 13-14 December 2016, raised its target rate for the Federal funds rate from a range of 0.25-0.5 per cent to 0.5-0.75 per cent, while other major advanced economies' central banks retained their accommodative monetary policy stances amid ongoing political and economic uncertainties.

The US Fed exhibited increasing optimism about the US economy and signaled that interest rates would rise at a faster pace than previously projected. On 8 December 2016, the European Central Bank (ECB) decided to extend its debt-buying programme, albeit it would be reducing its monthly purchases from EUR80 billion to EUR60 billion beyond March 2017. ECB President Mario Draghi stated that the central bank might increase the monthly purchases if required, and that there were no firm end-date for its stimulus programme. At its Monetary Policy Committee meeting of 14 December 2016, the Bank of England (BoE) unanimously voted to keep its base rate unchanged at the record low of 0.25 per cent and to maintain its government bond purchase programme at GBP435 billion and corporate bond purchases at up to GBP10 billion. The UK economy expanded at 0.6 per cent in the three months to September 2016, faster than the initial estimate of 0.5 per cent.

In December 2016, the US dollar strengthened on the back of robust economic growth and widening interest rate differentials. The US currency reached a 14-year high against the euro as the US Fed raised its target rate, building on expectations that there could be three more rate hikes in 2017. Towards the end of the month, the US dollar shed some gains as US yields slipped to a two-week's low and a dwindling risk appetite that favoured safe-haven currencies. The euro traded at an average of USD1.0544 in December 2016 compared to USD1.0808 in November 2016. During the month, the euro traded within a range of 1.0398 to 1.0773 against the US dollar. The Pound sterling rallied in December 2016 as the BoE shied away from a rate cut and hard Brexit prospects faced a hard blow following the High Court's ruling that Parliament must vote to start the exit process from the European Union. On 6 December 2016, the British currency reached a high of USD1.2739. The sterling traded at an average of USD1.2481 in December 2016 compared to USD1.2443 in November 2016.

In December 2016, major stock markets hit new highs on the back of strong economic data.

The MSCI Global Equity Index and MSCI Developed Markets Index rose by 2.3 per cent and 6.8 per cent, respectively, while MSCI Emerging Markets Index shed 0.1 per cent. The Dow Jones and NASDAQ increased by 3.3 per cent and 1.1 per cent, respectively. Among the European market indices, CAC-40 and DAX went up by 7.9 per cent and 6.2 per cent, respectively, and FTSE gained 5.3 per cent. Among emerging markets, JALSH gained 0.9 per cent while the Shanghai Exchange Composite, the Bombay SENSEX, and Hang Seng lost 4.5 per cent, 0.1 per cent and 3.5 per cent, respectively.

International energy prices and global food prices showed a mixed trend in December 2016.

ICE Brent Crude averaged USD55.0 a barrel in December 2016, up from USD47.4 a barrel in November 2016. NYMEX WTI (West Texas Intermediate crude oil) averaged USD52.3 a barrel in December 2016, up from USD46.1 a barrel in November 2016. On the other hand, the Food and Agriculture Organisation's (FAO) Food Price Index edged down by 0.1 per cent from 171.9 points in November 2016 to 171.8 points in December 2016, but was 12.0 per cent above the corresponding period a year earlier.

Domestic developments

In its December 2016 issue of National Accounts, Statistics Mauritius has revised down the real growth rate of the economy's gross value added at basic prices to 3.6 per cent for 2016 but is projecting a growth of 3.8 per cent for 2017. Domestic activity continued to be supported by the services sector, notably, the '*information and communication*', '*financial and insurance activities*', and '*wholesale and retail trade*' sectors. In terms of expenditure, both household and government consumption made positive contributions to GDP growth in 2016 while net exports posed a drag on growth. Domestic demand, particularly household consumption, is expected to support growth in 2017. Investment activity will continue to be anchored by the on-going implementation of infrastructure projects. At the sectoral level, the main assumptions underlying the growth forecast for 2017, are an increase in building and construction activities, a higher sugar output and an increase in tourist arrivals.

The uptrend in tourist arrivals was sustained, with an increase of 11.6 per cent in the number of visitors, and reaching 148,134 in December 2016 compared to 132,681 in December 2015.

This improved performance emanated essentially from increased arrivals from Europe (11.2 per

cent) and major source markets namely France, UK and Germany which were up by 7.7 per cent, 14.4 per cent and 23.2 per cent, respectively. Tourist arrivals from Asia rose by 3.5 per cent, reflecting largely an increase of 7.4 per cent in arrivals from India that was somewhat offset by the decline in arrivals from China (- 27.1 per cent). Tourist arrivals from Africa increased by 13.7 per cent, with the number of visitors from Reunion Island and South Africa going up by 4.6 per cent and 22.4 per cent, respectively.

For the year 2016 as a whole, tourist arrivals increased by 10.8 per cent to 1,275,227, from 1,151,252 in 2015. Tourist arrivals from European markets went up by 16.3 per cent to 734,506 in 2016, with marked increases registered from Germany (37.9 per cent), UK (9.4 per cent), Italy (7.4 per cent), and France (6.9 per cent). Tourist arrivals from the Asian market rose by 5.3 per cent.

Latest CPI data released by Statistics Mauritius showed that domestic inflation picked up marginally in December 2016. Headline inflation edged up from 0.9 per cent in November 2016 to 1.0 per cent in December 2016, while year-on-year inflation rose from 2.2 per cent to 2.3 per cent. The core measures of inflation remained at low levels in December 2016.

The annual growth rate of Broad Money Liabilities (BML) slowed in November 2016, while bank credit to the private sector contracted. Monetary expansion, measured by the year-on-year growth rate of BML, grew by 8.0 per cent in November 2016, down from 9.2 per cent in October 2016. Year-on-year growth in bank credit contracted by 0.1 per cent in November 2016 compared to a growth of 2.8 per cent in the previous month. The annual growth rate of the monetary base rose to 6.5 per cent in November 2016.

Government securities for a total nominal amount of Rs7,600 million were issued during the month of December 2016 and all the auctions were oversubscribed. The Bank issued Government of Mauritius Treasury Bills (GMTBs) of 91-Day, 182-Day and 364-Day maturities for a nominal amount of Rs4,700 million, of which Rs300 million was issued for liquidity management. Bids for a total nominal amount of Rs11,435 million were received and bid-cover ratios ranged between 2.05 to 2.99 as compared to 1.64 to 2.18 for November 2016. Maturing GMTBs amounted to Rs6,201.6 million in December 2016. Weighted yields on the 91-Day, 182-Day and 364-Day increased by 11, 14, and 17 basis points, respectively. The overall weighted yield increased by 19 basis points, from 2.68 per cent in November 2016 to 2.87 per cent in December 2016.

During December 2016, the benchmark 3.65% Five-Year Bond maturing 21 October 2021 and the 3.15% Three-Year Treasury Notes maturing 28 October 2019 were re-opened. Bids for a total nominal amount of Rs2,005 million were received for the Five-Year Bond against a tender amount of Rs1,600 million, resulting in an oversubscription of Rs405 million. The weighted yield increased by 17 basis points to 3.93 per cent, up from 3.76 per cent registered at the auction held in October 2016. The Three-Year Treasury Notes for a nominal amount of Rs1,300 million was also oversubscribed by Rs284.5 million, and the weighted yield worked out to 3.57 per cent, representing an increase of 24 basis points from the previous auction held in November 2016.

Between November and December 2016, based on the weighted average dealt selling rate¹, the rupee, on average, depreciated against the US dollar and Pound sterling but appreciated against the euro. The average rupee exchange rates were Rs36.077/USD, Rs38.208/EUR and Rs45.352/GBP in December 2016 compared to Rs35.940/USD, Rs38.950/EUR and Rs45.143/GBP in November 2016.

The Gross Official International Reserves (GOIR) of the country stood at Rs178,865 million (equivalent to USD4,967 million) at the end of December 2016, up from Rs175,034 million (equivalent to USD4,863 million) at the end of November 2016. Based on the value of imports of goods (f.o.b.) and non-factor services for calendar year 2015, the level of GOIR represented 9.0 months of imports as at end-December 2016, up from 8.9 months of imports as at end-November 2016.

¹ The rates are calculated on the basis of transactions of US\$20,000 and above, or the equivalent in other foreign currencies, conducted by banks and foreign exchange dealers and reported to the Bank.

BANK OF MAURITIUS

Prospectus

RE-OPENING OF 3.65% BENCHMARK FIVE-YEAR GOVERNMENT OF MAURITIUS BONDS

On 21 October 2016, the Bank of Mauritius issued 3.65% Benchmark Five-Year Government of Mauritius Bonds maturing on 21 October 2021, for a nominal amount of Rs1,600 million through an auction held on 19 October 2016.

2. Pursuant to the issuance plan dated 08 July 2016 and in accordance with section 5 of the Public Debt Management Act 2008 and section 57 of the Bank of Mauritius Act 2004, the Bank is pleased to announce the re-opening of the 3.65% Benchmark Five-Year Government of Mauritius Bonds maturing on 21 October 2021 through an auction to be held on **Wednesday 07 December 2016**, for a nominal amount of Rs1,600 million for settlement on **Friday 09 December 2016**.

3. The Bank will receive bids for this auction on the same day, i.e. **Wednesday 07 December 2016** on a **yield basis** quoted to two decimal places, in multiples of Rs100,000, on tender forms which are obtainable at its seat or on its website. Bidders may submit, for their own account up to a maximum of five bids, one for each bid yield, which, however, should not exceed the tender amount in the aggregate. Banks and/or Licensed Stockbrokers may also submit bids for the account of each of their customers on the same conditions. **All Tender Forms must bear the official stamp of the institution submitting the bid.**

4. Applications from individuals and non-financial institutions should be made through banks or licensed stockbrokers offering these services. Individuals may submit applications in their own names or jointly with another individual. Minors must, however, be represented by a legal guardian. Individuals must produce their National Identity Cards and a Utility Bill, e.g CWA, CEB, telephone bills etc., as proof of address. In case of minors, the original of their birth certificates should be produced.

5. The completed tender form/s should be placed in a sealed envelope marked “Tender for 3.65% Benchmark Five-Year Government of Mauritius Bonds (Re-Opening)” and should be deposited **in the tender box marked ‘A’, for Government Securities at the Banking Hall of the Bank of Mauritius, Bank of Mauritius Tower, Sir William Newton Street, Port Louis, before 10.00 a.m. on Wednesday 07 December 2016**. Banks may submit their bids through the Reuters Dealing System. The results of the auction will be announced on the same day and successful tenderers will be required to collect their letter of acceptance from the Bank and effect payment of the cost price of the Bonds through the Mauritius Automated Clearing and Settlement System (MACSS) at latest by **11.00 a.m. on Friday 09 December 2016**. Payment of maturity proceeds and interest accruing on the Bonds by the Bank will also be made through the MACSS.

6. The Bonds will be issued dated **09 December 2016** and will mature and be redeemed at par by the Bank of Mauritius on **21 October 2021**. The Bank may, at its discretion, allow the Bonds to be redeemed or converted into other instruments at market rates prior to maturity.

7. Interest on these Bonds will be paid half-yearly on 21 April and 21 October by the Bank during the currency of the Bonds to the bank account of the registered bondholder(s) or any other person authorised by the bondholder(s). Interest will accrue on the Bonds as from 21 October 2016 on the nominal amount allotted and will cease on the date of their maturity.

8. The cost price for the Bonds allotted will include interest from 21 October 2016 to 08 December 2016.

9. The Bonds will be issued in Book-Entry form and records will be kept at the Bank of Mauritius. The Bonds may be freely traded and are transferable from one investor to another in multiples of Rs100,000.-

10. The Bank of Mauritius reserves the right to accept or reject any bid either in full or in part, without assigning any reason in respect thereof.

¹Excluding Agalega and Saint Brandon.
² Revised.
³ Provisional.

⁴ Forecast.
⁵ The National Accounts data from 2006 are based on the 2013 Census of Economic Activities.

⁶ Data as from 2005 onwards refer to all banks and are not strictly comparable with prior years' data.

⁷ As from 2010, balance of payments includes cross-border transactions of GBCIs and are not strictly comparable with international organisations.

⁸ As from 2007, Gross Official International Reserves exclude the Bank's foreign equity participation in International organisations.

⁹ As from 2010, data are no longer adjusted for claims on Global Business Licence holders and are not strictly comparable with prior data.

@ As from 2010 to 2014, government finance statistics were compiled on a calendar year basis, spanning from January to December. From 2006 to 2009 and as from 2016, the financial year for government finance statistics spanned from July to June of the following year. As from 2008-09, government finance statistics are compiled using the IMF's GFS Manual 2001.

Note: Following IMF recommendations in January 2013, with effect from January 2010, liabilities to Central Government now include deposits of budgetary central government, extra-budgetary units and social security funds, as well as their holdings of Bank of Mauritius securities, which were formerly classified as "Deposits and Securities Other than Shares, Excluded from Monetary Base".

As from 2009, data refer to end-December, instead of end-June for previous years.

¹The sectoral balance sheet contains the stock and flow data for all categories of assets and liabilities of the Bank of Mauritius based on the concepts and principles of the IMF Monetary and Financial Statistics Manual (2006).

²Following IMF recommendations in January 2013, with effect from January 2010, "Securities Other than Shares, Excluded from Broad Money" now include holdings of Bank of Mauritius securities by social security funds, which were formerly classified as

"Securities Other than Shares, Included in Broad Money".

Figures may not add up to totals due to rounding.

¹ The Central Bank Survey (CBS) is derived from the sectoral balance sheet of the Bank of Mauritius. The CBS contains data on all components of the monetary base, which comprises the central bank liabilities underlying the monetary aggregates of the economy. The monetary base comprises all bank notes and coins in circulation and deposits of banks, non-bank deposit taking institutions and other non-depository corporations with the Bank of Mauritius.

² Following IMF recommendations in January 2013, with effect from January 2010, liabilities to Central Government now include deposits of budgetary central government, extra-budgetary units and social security funds, as well as their holdings of Bank of Mauritius securities, which were formerly classified as "Deposits and Securities Other than Shares, Excluded from Monetary Base". Figures may not add up to totals due to rounding.

¹ The Other Depository Corporations (ODC) covers all institutional units, i.e. Banks and non-bank deposit taking institutions that issue liabilities included in the national definition of broad money. The Other Depository Corporation Survey (ODCS)² Figures may not add up to totals due to rounding.

Source: Research and Economic Analysis Department.

is derived from the sectoral balance sheets of Other Depository Corporations.

Following IMF recommendations in January 2013, with effect from January 2010, deposits of social security funds and extra-budgetary units, which were formerly included in Broad Money Liabilities (BML), have been re-classified as Central government deposits, excluded from Broad Money.

¹ The SEM Total Return Index (SEMTRI) was launched on 3 October 2002 at 743.44 in Rupee terms, and 391.34 in US dollar terms (Base value as at 5 July 1989=100). The new index includes price earning ratios and dividend earnings, besides measuring price changes on listed stocks. The index has been worked back so as to provide the market's evolution over time.

² The SEM-7 started with an index value of 100 on 30 March 1998. As from 2 October 2014, the SEM-7 has been replaced by the SEM-10. The opening level of the SEM-10 was set at the closing level of the SEM-7 index on 1 October 2014.

Headline Inflation Rate	+9.7	+2.5	+2.9	+6.5	+3.9	+3.5	+3.2	+1.3	+1.0 ³

¹ Effective April 2013, the new CPI is based on an updated basket of goods and services derived from the 2012 Household Budget Survey.

The base period is January – December 2012 = 100.

² Year-on-Year Inflation Rate for the period ended December 2016.

³ Headline Inflation Rate for the twelve-month period ended December 2016.

Notes: (i) Year-on-Year inflation rate is computed as the change in the CPI for a given month compared with the same month

of the preceding year in percentage terms.

(ii) Headline inflation is measured by comparing the average level of prices, as measured by the CPI, during a twelve-month period

with the average level during the corresponding previous twelve-month period.

¹ Effective April 2013, Core inflation data are compiled using the new basket of goods and services derived from the 2012 Household Budget Survey.

Notes: (i) Headline inflation is measured by comparing the average level of prices, as measured by the CPI, during a twelve-month period with the average level during the corresponding previous twelve-month period.

(ii) CORE1 excludes "Food, Beverages and Tobacco" components and mortgage interest on housing loan from the CPI basket.

(iii) CORE2 excludes Food, Beverages, Tobacco, mortgage interest, energy prices and administered prices from the CPI basket.

(iv) TRIM10 truncates 5 per cent of each tail of the distribution of price changes.

¹ Effective April 2013, Core inflation data are compiled using the new basket of goods and services derived from the 2012 Household Budget Survey.

Notes: (i) Year-on-Year CPI inflation is computed as the change in the Consumer Price Index (CPI)

for a given month compared with the same month of the preceding year in percentage terms.

(ii) Year-on-Year CORE1 excludes "Food, Beverages and Tobacco" components and mortgage interest on housing loan from Year-on-Year CPI inflation.

(iii) Year-on-Year CORE2 excludes Food, Beverages, Tobacco, mortgage interest, energy prices and administered prices from Year-on-Year CPI inflation.

December	94.376	103.279	101.478	93.815	102.181	100.285

Notes:

(i) The Mauritius Exchange Rate Index (MERI), which is a weighted average of bilateral exchange rates for the Mauritian rupee, is a summary measure of the rupee's movements against the currencies of its important trading partners.

(ii) The choice of currencies has been influenced by the importance of the currency distribution of trade flows of Mauritius with the rest of the world.

(iii) Two indices have been derived: MERI1 and MERI2. MERI1 is based on the currency distribution of merchandise trade, while MERI2 is based on the currency distribution of merchandise trade and tourism earnings.

(iv) The base year of the MERI is January - December 2007 = 100.

(v) An increase (decrease) in the index indicates a depreciation (appreciation) of the rupee.

¹ Data on direct investment flows for 2011 to 2014 have been supplemented with results obtained from the Foreign Assets and Liabilities Survey (FALS). Besides equity, these data therefore also include reinvested earnings and shareholders' loans.

² Preliminary. Data as from 2015 would be revised in the wake of results from future FALS and are therefore not strictly comparable with prior years' data.

Figures may not add up to totals due to rounding.

¹ Data on direct investment flows for 2011 to 2014 have been supplemented with results obtained from the Foreign Assets and Liabilities Survey (FALS). Besides equity, these data therefore also include reinvested earnings and shareholders' loans.

² Preliminary. Data as from 2015 would be revised in the wake of results from future FALS and are therefore not strictly comparable with prior years' data.

Figures may not add up to totals due to rounding.
